AUTOMATED EXTERNAL DEFIBRILLATOR (AED)

The importance of Automated External Defibrillator (AED) cannot be underestimated. Not only has the quick application of an AED in a cardiac emergency been proven to prolong life until EMS arrives but save the lives of those experiencing a crisis. St. John Ambulance is pleased to now carry two brands of Automated External Defibrillators from Philips and ZOLL.

Alberta Workplace Health and Safety supports the use of AEDs at the work site provided the employer ensures that AED use is integrated into the emergency response plan at the site and workers using an AED are trained to safely use it.
